

Hi, everyone. A few items to tell you about today...

### **Replacement Decals**

Have you crashed your kit and need to fix it, or bunged it up transporting it to and from the site, or just want some kit decals for a scratchbuild project? We now offer replacement decal sheets for all our kits, available on a new webstore page called Decal Sheets. Every kit decal sheet that we make, as well as a PML Logos decal sheet (in either red, silver, or black) is available on the Decal Sheets page. And the best part...all of 'em (except the Bulldog) are only five bucks!

### **New prices on our White, Black, and Ash (light grey) shirts**

Large and X-Large shirts; \$12.95.

2X shirts; \$14.95.

3X shirts; \$16.95.

You'll notice the above are price reductions from previous prices as well! Also, the 3x shirts are now in stock as well (we were out of them for a while).

### **Hats**

We have new hats now, Red or Black. Hats are very similar in looks to the hats on the PML Wearables section of our webstore.

Red hats have black embroidered logo and black embroidered Public Missiles Ltd. (name) with a braid on the bill.

Black hats have red embroidered logo and red embroidered Public Missiles Ltd. (name) with a braid on the bill.

Price for hats is \$11.95 (also a price reduction).

### **PMR Motor Retention System**

Our popular PMR motor retention system hopefully will be even more popular with the announcement that they're now less expensive!

- PMR 29/38; was \$16.00, now \$14.99
- PMR 29/38-KS; was \$16.00, now \$14.99
- PMR-54; was \$18.00, now \$14.99
- PMR-4-40 Inserts (used with the PMR-29/38) are still \$4.99, and include (3) bolts and allen wrench
- PMR-8-32 Inserts (used with the PMR-29/38KS and PMR-54) are still \$4.99, and include (3) bolts and allen wrench

### **Removable Rivets**

If you've used our removable rivets shown on the Hardware page of our webstore, you know how handy they are for retaining nosecones to payload sections, or temporary joints of any kind. The removable rivets we've had for years are a "natural" color, sort of a translucent cream color.

We now have the same rivets in black. Whether natural or black, order a bag of 24 next time you're placing an order and you'll see how handy they are. For \$2.85 for 2 dozen you can't go wrong.

You should see all these changes on our website very soon.
