

You heard about the PML Photo Contest in PML News Vol. 48. Well, we got in a good number of entries, and would like to thank everyone who sent in photos. We would also like to announce the following PML customers as winners:

Rod Borget -- Tethys
Carl Tulanko -- AMRAAM-4

You can see these two new high-power-rocketry superstars <grin> on our website. Go to the Sport Fliers and Scale Kits areas respectively, and click on the "Click here to see a larger picture..." links under the Tethys and AMRAAM-4.

Congratulations Rod and Carl! Your \$40 PML Gift Certificates will be on their way shortly!

Now, the good news for everyone besides Rod and Carl...we've decided to continue the photo contest essentially indefinitely. That means you can ALWAYS submit a photo to us for consideration for the \$40 Gift Certificate and use on the website! Now, keep in mind that what we're ideally looking for is a photo of you with the rocket (gives a nice scale to see a person with the kit) as well as a launch shot. Photo quality is VERY, VERY important. See the Newsletters page of our website and look at PML News Vol. 48 for all the details.

We still need photos of all our other kits besides the Tethys and AMRAAM-4, so there's PLENTY of room left for you to win! Send in those top-quality LDRS or NARAM photos, as well as your premium photos from other launches. Maybe a PML \$40 Gift Certificate and a spot on our website is waiting just for you!
