Another quickie...recently we've begun shipping P5 altimeters that have a charging time of 5 hours, not the 10 hours shown in the instructions. If the charger you received with your P5 has a note on it stating "CHARGE P5 5 HOURS", please make the change in your instructions under "Wall Charger/Suggested Method" to step 3. Cross out 10 hours and replace with 5 hours. The instructions have been changed for all subsequent shipments. We apologize for the oversight if your instructions say 10 hours but the charger says 5 hours.
